Before the Course Starts

Please check the course website for the more detailed Class Syllabus.

General notes on the textbook:

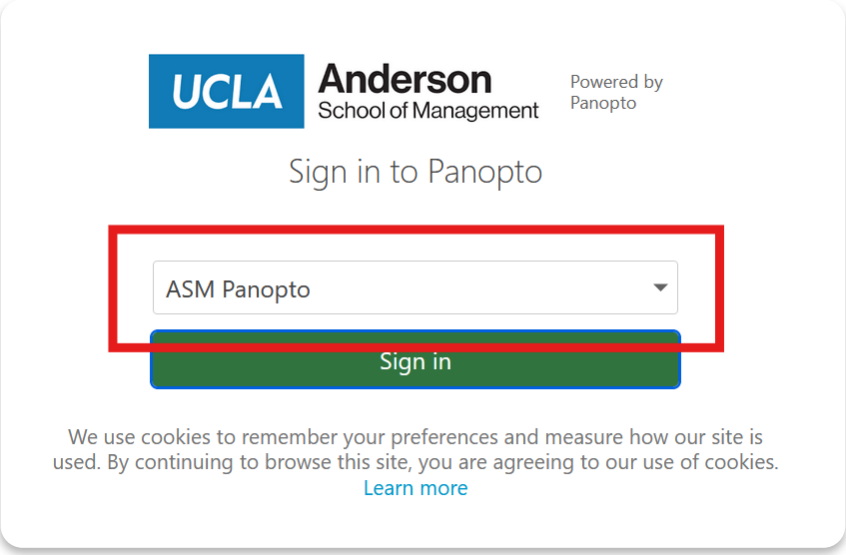

- "Microeconomics" by Goolsbee, Levitt, Syverson (4th edition). See the different purchase options in the class syllabus.
- The "Figure it out" boxes in each chapter should be considered as advanced (voluntary) readings.

Optional pre-class training: If you feel you could use a math refresher before the class, I suggest:

- Take the Math Quiz (10 – 15 min)
- Watch the Math Review Videos

Watching the course videos: This may require you to sign-in to Panopto. Use option **"ASM Panopto"**
